RIGHT DOING, THERE IS A FIELD. I’LL MEET
YOU THERE.” - RUMI**

12th-14th June, 2020

COLORS OF ONENESS

We will meet in the field of Oneness, the energetic space that completely transcends the limitations and polarity of mind consciousness and the conditionality of the heart.

Oneness is a place of calm, peace, openness and Truth. Using Color Energy to explore and feel Oneness, you will release old beliefs and experiences that stop you from living fully in your Truth; get new clarity in your relationships so you can easily support and be supported by others, and get new insights into your gifts and how to share them.

You will be infused with the energy of the Colors of Oneness so that you can experience the quieting of your ruminating mind -- no more regret or triggers from the past, no more worry about the future, just calmness and openness in the present. You will feel the Truth of who you are in every part of your body, so you will trust your intuitive guidance and wisdom completely. By the end of the retreat you will have a uniquely confident, joyful and peaceful way to live compassionately in this new world.

WHO IS CYNTHIA?

Cynthia Zeki, Ph.D., RMT is a healer, teacher, and mentor who works in the transcendent energy of Oneness, a place of calm, beauty, non-judgment and joy.

She helps highly sensitive/empathic women release their old patterns and uncover the beautiful truth of who they are so they can live in Oneness and live confidently, comfortably, and joyfully in their Truth.

After Cynthia earned her Ph.D., she taught in colleges in Asia and the US. After a stress-induced illness, she explored natural ways to heal and transform. She became a massage therapist, started a vegan food business, and studied and practiced many spiritual teachings, and many different healing methods, including Akashic Record Reading, Henry Reed's Intuitive Heart Discovery Process, Drunvelo Melchizedek's Awakening the Illuminated Heart, and Regeneration Therapy. She is a Reiki Master Teacher and 12 Rays of the Archlight Master. She has been in practice for twenty years, giving healings, teaching workshops, and leading retreats throughout the US and the Caribbean.

A few years ago Cynthia realized that much of what she was practicing was complicated, and didn't reflect the simple and elegant truth of Oneness, which is in every cell of our bodies, not just our hearts or our conscious minds. She explored ways to live, heal and teach in this Oneness, and discovered that the energetic qualities of Oneness had colors that could be experienced by everyone. She began to heal and teach in this space, so everyone she works with can joyfully embrace all of life with presence, openness and wonder, just as she does.

She lives with her husband on the Caribbean island of St. Thomas, USVI where they own a metaphysical and fair trade gift shop called Mystic by the Sea. She is grateful to live in America's Paradise, where every day feels like she's on a retreat!
